#### DROWNED AT TIVOLI.

A HORRIBLE CASUALTY AT

A Baltimore Picnic Party Ends with Death-The Giving Way of a Pier Precipitates the Entire Party into the Water-Sixty to Sav-enty Persons Drowned, Etc.

BALTIMORE, July 24 .- A terrible calamity occurred at Northpoint, Tivoli, an excursion resort on the Patapsco, ten miles from this city, about 10 o'clock last night, by which many lives were lost, the number being estimated between 60 and 70. The accident was occasioned by the giving away of the outer portion of a pier, on which several hundred persons congregated awaiting the boat to return to this city. The locality is on a small bay, distant about two miles from Northpoint light house. It was formerly known as Holly Grove, and was the first regular excursion place fitted up near the city about fifteen years ago, and was the most popular resort at that time and for several years afterwards.

Yesterday the excursion was given to Tivoli under the management of the Mount Royal Beneficial society of the Catholic church of Corpus Christi, of which father Starr is pastor. The Mount Royal avenue and Mather street excursionists went down on the barge Cockade City, which was towed by the tug Cockade City, which was towed by the tug Amanda Powell. The barge was formerly an old canal boat, which had been fitted up with several decks for excursion purposes, and used as such for several years. Yesterday she made three trips, the last being made from this city between 6 and 7 o'clock last evening, and reached Tivoli before 10 o'clock. During the day she had taken down about 500 persons, and on her last trip, about 100. A large number of those who went gown during the number of those who went down during the day had remained, intending to return on the

When the barge approached those on shore made a rush for the end of the wharf, which is several hundred feet long, and were closely packed together at the gate, about 25 feet from the end, impatiently awaiting admittance the end, impatiently awaiting admittance through the gate. As the barge came along-side and struck the wharf, it suddenly and side and struck the wharf, it suddenly and without warning gave way. A large portion of the crowd were precipitated into the water, which is about ten feet deep. Many were able to save themselves by fleeing toward the shore as the outer end of the pier crumbled and fell. Darkness added to the confusion and terror and little could be done at ence to rescue the drowning, mostof whom were women and children. The first news of the disaster reached this city a little after 2 o'clock this morning, when the barge landed at Henderson's wharf, bringing a number of-bodies of the drowned. Up to this hour it is said 61 bodies have been recovered. is said 61 bodies have been recovered.

THE DEAD IDENTIFIED. Up to noon sixty-five bodies had been brought to the city, all of which, except four, have been identified. The following is the list with the ages so far as ascertained. #### DEATH IN THE AIR. Over 500 Deaths from Cholera in Egypt in Que

London, July 24.—The reported presence of the cholera in this city is strenuously denied by the health authorities. The plagues of e world are recounted in anticipation of the danger which is now expected. The earliest plagues of which there are any account of, those described in Exodus, occurred in Egypt 1491 B. C. In 524 B. C. there was a plague a Carthage so terrible that parents sacrificed their children to propitiate the gods. In 187 B. C., in the Greek islands, Egypt and Syria, people died at the rate of 2,000 a day. In Rome, A. D. 80, I0,000 persons died daily. Another plague at Rome A. D. 256 took off 5,000 a day. In 430 Britain was scourged so that the living were hardly able to bury the dead. During the years 746-749, Constantinople lost 200,000 of its population. At Chichester, England, in 772, 34,000 people died, and in 954 Scotland lost 40.000 people. Ireland was sorely visited in 172 and 1204, and again in 1348-9. At that time 200 people were buried daily in London. In 1407 London lost 30,000 citizens. There was a fearful pestilence at Oxford in 1471. The dreadful "sweating sickness" occurred in London in 1506, and again in 1517. In most of the towns half the people died, and Oxford was depopulated. In 1522 thousands were swept away in Lime-In 1522 thousands were swept away in Limerick. The sweating sickness revisited England in 1528 and again in 1551. In 1603-4 30, 578 people perished of plague in London. Constantinople again lost 200,000 people in 1611. In 1625 London lost 35,417 inhabitants. In 1632 Lyons lost 60,000. In 4656 400,000 people died at Naples in six mon 4s. In 1664 London's great plague took off 65 596 inhabitants. In 1720 60,000 people died at Marseilles. In 1773 80,000 inhabitants of Bossora, Persia, died of plague. In 1792 800,000 persons died of plague in Egypt. In Barbary 3,000 people died daily, and in 1799 247,000 people perished at Fez. Asiatic cholera first appeared in England at Sunderland, October 26, 1331, and in North America at Quebec June 8, 1832, and in New York June 22, 1832. It 8, 1832, and in New York June 22, 1832 revisited the United States in 1834, slightly in 1849, severely in 1855, and again lightly in 1866-7. In 1829 30, 900,000 people died of 1866-7. In 1829 30, 900,000 people died of cholera in Russia and Germany. In 1848-9 53,293 people died of it in England and Wales and in 1854 these countries lost 20,097 and Naples 16,000 persons. In 1865 50,000 people died of cholera at Constantinople.

Pair of Aged Ruralists Burn Down Their Home and Barn, and When Arrested Confess the Crime. SOMBEVILLE, N. J., July 24.—Boundbrook and Middlebush are excited over the case of a couple named Sullivan, each over sixty years old, who have been committed to the jail in this place to await trial upon a charge of having burned the house and barn on their farm in the town of Middlebush, near Boundbrook. The Sullivans have lived on their farm for many years and have been generally respected by their neighbors. They were regular church-goers. On the 4th of July they drove in the afternoon to Boundbrook for the purpose, they said, of hiring harvest hands. #### MR. HUSS'S STRANGE ACTIONS. otta's Legal Adviser Makes a Statement Concerning

the Reported Marriage of the Actress to Mr. Huss. PHILADELPHIA, June 24.—The story about PHILADELPHIA, June 24.—The story about the marriage of Lotta, the actress, is denied by James H. Heverin, who is her legal adviser and personal friend. He has had letters from Lotta since her arrival in England, and she makes no mention of marriage. "If she had really been married just before she went abroad," said ke, "she could have had no possible motive for concealment, and even if the marriage had been clandestine, all the facts would have come out after the first publication some weeks ago. Now I see that the new evidence, which satifies the correspondents that the marriage really took place, is that Mr. Huss has given really took place, is that Mr. Huss has given a dunner and the money which he spent upon-it was part of a draft from Lotta, and that he will soon sail for Europe. If some one would find out when, where and by whom the marfind out when, where and by whom the marriage ceremony was performed the rumor might be worth something. From the published stories, as well as from what I have heard of Mr. Huss, I am inclined to believe that he is a crank, and that either by his own imagination or through a practical joke, he has been impressed with the idea that he was married to Lotta. Lotta has been singularly successful in turning the heads of reads. successful in turning the heads of cranks. There is one man in Chicago who believes that he was married to her and who has for years written to her regularly, although he never received a reply. He even believes that she writes to him, and will begin his letters by addressing her as his wife and acknowledging the receipt of letters from her. I guess that Mr. Huss is in the same boat with him. On the other hand, the whole story may be a

Red Fish Lake in Idaho Drops Through the Botton

With its Finny Population.

BUTTE, M. T., Juiy 23.—Red Fish Lake is no more. It was located on the summit of sawtooth Mountains, in the Wood river region, Idaho. An exploring party from this city found that it had dropped through the bottom. It had an area of several miles and was many fathoms in depth. It was on the summit of one of the peaks of the range, some 11,000 feet above the elevation of the sea, and surrounded by heavy timber, which render ed it a delightful place of resort in the sum mer for camping, fishing and boating parties. The lake has been there since the white man has known the country, but lately—the day is not known—the bottom fell out. The coun not known—the bottom fell out. The country formation is granite and limestone, and an immense fissure has been opened, whether caused by separation or settling of the earth's surface or from volcanic action is not known. At present the bed of the lake is dry, and presents the appearance of a deep gorge or valley on the summit of the moun tains. This lake has always contained millions of fish and been a favorite resort for deer, bear and other game. Where the fish went to is as much of a mystery as where the water went.

CAPE MAY, July 24.-President Arthur i ere, and all Cape May, with its 10,000 visitors, is agog to see the nation's head and do him honor. The president was met by a ommittee, headed by Senator Sewell, of this state, and escorted to the Stockton hotel where accommodations have been specially provided for his sojourn.

During the day the president was not an oyed in any way, but passed his time exactly according to the bent of his own incli nations. He accepted an invitation from Captain Burnside, of the National Rifles of Washington, who are spending ten days here, to review the command on Congress hall lawn in the afternoon. The arrangements for the president's reception and sojourn are as omplete as possible, considering that the length of his stay is unsettled. After dinner at 5 o'clock the immense dining room of the at 5 o'clock the immense dining room of the Stockton, the largest on the Jersey coast, was cleared of tables and chairs. The president, accompanied by the reception committee took up a position at the east end of the room, the doors were thrown open for a public reception, all comers were introduced, and a two or three hours' handshaking, probably the most tedious part of the president's visit correct.

Sewell, Clayton McMi-chael, of Philadelphia; Robert Crangle, president of the City National bank, of Wheeling dent of the City National bank, of Wheeling, W. Va.; M. Hall Stanton, of Philadelphia; Hugh Sisson, of Baltimore; E. C. Knight, president of the Bound Brook railroad; A. M. Fox, of Philadelphia; W. Burr Miller, from Cape May county, N. J.; William Heaton, of Philadelphia; Judge James Campbell, of Philadelphia; Colonel George B. Corkhill, district-atterney of Washington; J. R. Wood, ground begenner agent of the Pennsylvania general passenger agent of the Pennsylvania ailroad; Thomas Conklin, of Baltimore; F. Morson, of Baltimore; George W. oyd, assistant general passenger agent of ne Pennsylvania railroad; J. H. Cottman, of Baltimore; G. F. Rafferty, the largest coach-naker of Pittsburg; Francis C. Burns, of Bal-imore; Captain C. S. Magrath, editor of the Cape May Wave; Edward Higgins, Jr., of Balmore; George W. Dilworth, of Pittsburg; C. Thompson, of Chicago; Charles Donneily, Pittsburg; George Adams, of Wheeling, West Virginia: George Schaefer, of Atlanta William C. Hines, of Baltimore; George P. Whitaker, Francis C. Brewster, of Philadel-phia, and General James K. McCammon, asstant United States attorney general.

The quarters which were assigned the president are rooms Nos 21 and 23, first floor of the south or ocean wing of the hotel. The inner room is provided with all the accompaniments of a most luxurious bedroom, and has one window overlooking the sea. The other room is considered the finest in the hotel. It is very flarge, having three windows, from magnificent view of the ocean, only 300 feet distant, is obtained. The furniture is off the most elaborate description, and was specially brought down from Philadelphia in

honor of the president's visit.

New lace curtains were hung at each window, a new carpet was laid, and the walls of the room were tinted to match. The furniture consists of a beautiful mahogany ecretary, a bouffette to match, with an immense beveled-edge mirror, a centre-table, lounge, half a dozen easy chairs, and an old-fashioned arm-chair, with a leather seat, many years ago the propriy of Commodore Stockton. More luxurious quarters in which to enjoy a rest by the sea-shore cannot be imagined, and every inducement will be held out to keep the president here several days.

He saw everywhere evidences of the strides they are making in shipbuilding and naval matters. They now control fully half the carrying trade of their coast, and are also absorbing the banking trade and other interests hitherto handled solely by foreigners. Already the cry is being raised, "The English must go," and it will be agitated as thoroughly in China as the anti-Chinese movement has been in Cali-fornia. Russia is determined to obtain conrol of the Amour river, and eventually grab Corea, and is beginning to colonize the region traversed by the Amour with that end in view: but the Chinese to offset that, have also begun to colonize, and as the five provinces in the vicinity of Pekin alone have 125. 000,000 inhabitants, 2,000,000 a year can be easily spared for that purpose. #### CONFEDERATE BONDS.

A Louislana Statesman's Scheme of Realizing or

Washington, July 24.—Δn ingenious theme to bull the worthless bonds of some of the southern states has been formulated in the brain of Colonel Roberts, of Louisiana. The latter occasionally contributes some very readable but rather apocryphal gossip for the Sunday Herald, of this city, and in it today he ventilates the scheme, which is worth reading only because of its "Colonel Mulberry Sellers" audacity. The article says: "The general government will be asked to guarantee the deots of the southern states whose bonds are below parata rate to be fixed, and the balance of the debt will be canceled. To illustrate: The state of Louisiana, of the southern states has been formulated in

reled. To illustrate: The state of Louisiana or instance, has a debt of \$12,000,000, and the bonds representing it are worth now about seventy cents. That state will call in all its bonded debt and replace it with a new bond bonded debt and replace it with a new bond guaranteed by the government bearing 3½ per cent interest, the whole amount of these new bonds being \$8,400,000, or retiring the debt at 70 per cent. Thus the debt of Louisiana will be reduced from \$12,000,000 to \$8,400,000, and \$3,600,000 of the original amount will be wiped out. The state will then levy a special tax for the payment of her annual interest to the United States, which would be less than \$300,000 per annum, and the new bonds would be at par. This is the plan. Its advocates say it will reduce the debts of some of the states one-half, and can do no possible of the states one-half, and can do no possible harm to the bondholders, the public or the people of the state. They declare that Wall street will be for it, which is very probable, and that two-thirds of the representatives of the states interested will favor it when the plan is fully understood.

NEW YORK, July 24.—Affairs at the offic of the Western Union company seemed to be in a better condition this morning than at any time since the strike. Over three hun-dred operators were at the desks, and all the important wires were said to be fully manned. The only delays in handling business this morning were for parts west of Buffalo and morning were for parts west of Buffalo and Pittsburg, where it was reported that consid erable damage had been done by the severe storm of yesterday to the wires of the company. In other respects the situation was as satisfactory as the company could expect. There was no inthe company could expect. There was no intention whatever of yielding to the strikers, and it was said that now the company was on a firm basis they had nothing more to fear. The number of applicants for situations was increasing daily, and Mr. Dealy said that the eighteen offices on Leng Island had been manned this morning, and besides that several additional offices had been opened in New York. As fast as new hands were tested those who were found competent were sent to out of town offices, where their services were needed.

The ATLANTA SENATION.

New YORK, July 24.—The great sensation of the telegraphers' strike to-day was caused by the announcement which came from Atlanta concerning the shooting of Receiving Clerk Wall. The rumor got out that Mr. Wall had been killed, still another that it was M. Witt who had fellow avisite that it was Mr. Witt who had fallen a victim to the aim of an outsider. The striking operatives, however, held to it that fuller particulars would show that the skirts of their would show that the skirts of their Alanta brethren were clear. The officers of the Western Union, however, could not miss so good an opportunity to score a point, and at once assumed that it was an attempt on the part of the strikers to remove a loyal man. In their eagerness to fasten odium on the striking operators, they instructed Mr. Stephens, manager of the Atlanta office, to offer a reward of \$1 000 for the conviction of the man with the

A large number of the members of the pro duce exchange to-day signed a petition to the board of managers, asking them to request the telegraph companies whose employes were now on a strike, to consider the present condition of affairs and take steps to put an end to the strike which was working such serious injury to the business interests of the country. The meeting of the strikers was prolonged during the afternoon at Clarendon hall, and dispatches were read from other points as fast as they were received. They all contained expressions of the greatest confidence in the expressions of the greatest confidence in the success of the movement, especially those from Oswego, Worcester, Massachusetts, New Orleans and Detroit. WIRE CUTTING CHARGE.

CHICAGO, July 24.—Wire cutting has exten-ded from the telephone to the telegraph lines. Two wires belonging to the Western

Union and one to the Chicago and Milwaukee company were cut Sunday night. The broth-erhood claim that their members had nothing o do with it, and they go the Western Union one better by offering a reward of \$501 or the detection of any person engaged in molesting Western Union property.

Brookean, July 24.—The strikers held a

meeting last night, where it was stated that, while the Western Union company declared they had 300 operators employed in the New York city main office, the fact was they had only about seventy-five. Statements were read from operators in the main office of the Western Union setting forth that the com-pany was totally unable to handle the business. Out of 500 operators employed last week, it was said that only thirty-eight men and thirty-nine women were left, including chief operators.

WHERE THE BLAME RESTS.

PHILADELPHIA, July 24.—Fifteen branch offices of the American Rapid company have been closed, and all business is now conducted at the main office on Chestnut street, near econd, which has also been deserted by all exsecond, which has also been descrete by all ex-cept Manager Pennock and two female type writers. Pennock states to-day that very little business was being transacted over their wires. At the office of the Baltimore and Ohio company, the same state of affairs exists. All the operators are in the movement except the chief who said to day that business, so far as his office was concerned, was at a stand still. President Laverty, of the local branch of the brotherhood of telegraphhers this afternoon, sent to press for publication a circular addressed to the pubic, in which he calls attention to an impression which prevails to some extent that the executive board of te egraphers inexorably insists upon all or nothing, and that the strikers therefore are responsible for the in-convenience which the public is suffering. This, he says, is an erroneous impression, as the board has always been ready to consider proposals having in view a settlement of the difficulty, but thus far the telegraph companies have positively refused to recognize the board as positively refused to recognize the board as representatives of their employes, when the events of the past few days have clearly shown that the board does represent the telegraphers of the country. Attention is called to the fact that a satisfactory adjustment of the difficulties would be quickly arrived at if the several corporations would recognize and treat with the executive board, chosen by the telegraphers for that purpose

New York, July 24.—In order to meet in an official way, the numerous inquiries addressed to the Western Union telegraph authorities regarding the condition of business and the influence and progress of the strike, it has been determined by the officers of the company to make twice a day hereafter, a statement for the press of the country. It is learned that at two o'clock to-day, according to company's log, eastern business was up and in good shape; that they were sending on three wires south and to New Orleans, with only fifty messages on hand; that they were up on the Pittsburg and Buffalo, but that business west of Pittsburg and Buffalo was two or three hours behind; that business was two or three hours behind; that desired to St. Louis was several hours behind; business bound west of Chicago was in good shape, and up, but all that coming east by way of Chicago was considerably delayed way of Chicago was considerably delayed there on account of trouble on the wires be-tween Pittsburg, Buffalo and the west.

## PERISHED IN THE ATTEMPT.

Another Victim to an Attempt at the Impossibles at BUFFALO, July 24 -Captain Matthew Webb, the noted English swimmer, perished in an at tempt to swim the Niagara river whirlpool rapids this afternoon. He was rowed in a skiff to opposite the Old Maid of the Mist landing, by John McClay, ferryman at the falls, and leaped from the boat at two minutes past 4 o'clock. The daring swimmer passed the big rapids all right, keeping the middle of the stream. When he struck the whirlpool he was rushed to the American side where the waves, it is estimated, are from 30 to 40 feet high, and the last seen of him was to throw up one arm. last seen of him was to throw up on arm. His shoot of the rapids was thrilling. His intention was to pass the whirlpool on the Canada side. Webb leaves a wife and Canada side. Webb leaves a wife and two children in England. The refusal of the railroad and hotel managers at the falls to have anything to do with what they termed his going to his death rendered the affair financially a failure. The river has been searched two miles below the whirlpool and no trace of the fool-hardy man can be found, and it is generally conceded he was engulfed in the whirlpool.

from the Dublin Gazette Near the residence of Mr. Henry Montford, in this county, in the early spring, a part-ridge built her nest, and laid therein twelve eggs. While the hen partridge was seen daily to visit the nest and deposit one more egg, the cock bird was noticed to linger egg, the cock bird was noticed to linger around until joined by his mate. But like everything that has life, sorrow came and robbed the cock bird of his loved one, perhaps by the cruel sportsman's whizzing bullet. Left alone to fight life's battles, the poor cock partridge no doubt meditated upon what should be done. At any rate, a decision was soon arrived at and the old fellow with true polleness of heart the old fellow, with true nobleness of heart went to the empty and deserted nest and re-solved to take upon himself the charge of hatching and raising the charge his helpmeet had left be-hind. For days and weeks he was seen on the nest until hatching time came, and the ittle fellows came forward to crown his lone-y days with pleasure. The little birds now ollow and will perhaps never know a "moth er's love." The male bird is as attentive in ratching for the little ones as it is possible for a female to have been.

## "I Saw a Very Ugly Ghost."

A charming young lady of Brooklyn was elating some of the troubles she had had in he night. The ghost which walked in her oom looked something like a lobster, and mething like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed in the morning, she remarked that she always kept a bottle of PERRY Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

Griflin News: Early Saturday morning the sheriff of Gilmer county passed through here on the down night train, having in his charge a lunatic whom he was conveying to the asylum at Miledgeville. The man was then apparently quiet, but about Orchard Hill, acouple of miles below here, he plunged through a car window, feet foremost, while the train was going at full speed. The train was stopped and a search instituted for the unfortunate man, but he had disappeared. The sheriff remained in the neighborhood and looked for him, but was obliged to return home yesterday evening without having found him.

There are five prisoners in Lumpkin county jail. Fastman Times: In reading the communications of my nephews, Dr. J. C. and A. L. Ryals, in late issues of the Times, so many incidents have been brought to my mind, both pleasant and sad, of my youthful days. In connection with the old Dad River church and its large gravey ard, I will enlarge on the facts they have related, and especially the remarkable life of my honored father. Rev. Wilson Conner. A. L. Ryals speaks of a cherry tree planted by my father in this graveyard fifty years ago. I have often heard my parents speak of losing one of their children, and the day she was buried father planted two small cherry trees—one at the head and the other at the foot of her grave. I know these trees are over seventy years old. My sister died several years before I was born, and I am now seventy. But as A. L. Ryals only mentions one of these trees, I infer the other one is dead. I have not visited the place since 65. These trees stood in all their vigor then, nence overlooking the large farm and grazing lands. Mrs. Stinson and five little girls (they have no boy at all) came to meet us. One could easily recognize them as Troup county people, from their generous, kind greeting. Their cheerful faces and bright eyes tell us how glad they are to see their kinsman, Mr. Tigner had never been to see them hat Mr. Tigner had never been to see them before, because he had heard that they lived on "coon and 'possums." Both of us knew that such was not the case when we left the diming room at supper. We met Mrs. Evans and daughter, of Birmingham, formerly of Long Cane, all on a visit to Mrs. S. After supper, a box of good cigars was put upon the table in the long hall, the children gathered with all us "old folks" and we talked of "friends far away," till late, and then retired to rest, while a gentle breeze, perfuned with the magnolia biossoms, stole gently through the blinds. To-morrow we ride over the farm and next day we take in Macon and the "sweet girl graduates."

when it was located at Fenfield. P. A. Mell, of the State university, is a grandson also, by marriage. My father was a most remarkable man; his heart and soul were wedded to the missionary cause, and he preached from the mountains to the sea-board. In fact, the whole state might be called his missionary field. He was a man of great endurance. He was often heard to express the desire that the last hour of his life might be spent in preaching, and then die in the pulpit. This wish was granted him. In the summer of '44 he was preaching a few miles below Jacksonville, in this county, and the text chosen for the occasion was the fifth chapter 25th verse of John—"Verly, verily I say unto you, the hour is coming, and now is, when the dead shall hear the voice of the Son of God; and they that hear shall live." Those who were present said futher preached with great power and ability. At the close of his discourse he touched en i is favorite theme—the missionary cause—and said that he "firmly believed that those who had been instrumental in turning many from darkness to light, and from the power of Satan to God, would shine as the stars forever and ever," and he believed he would be among those stars, though of lesser magnitude. He sait down, and an aged minister of the Methodist persuasion took up the hymn book to conclude the services, and saw something was the matter with father. The friends gathered round, but before they could lay him in a rectining position, his spirit had taken its flight to a brighter would than this. Thus ended his useful life of seventy

I became dreadfully troubled by being short-breathed, so that even a slight exertion or a little exercise would tire me almost to exhaustion, and I was so tressed when I retired nights that I could not sleep, and was very restless. One of my limbs especially had a very severe nervous pain, which always seemed to be more severe at night than at any other time, and would frequently ache so sharply as to arouse me from sleep. I was very nervous and uncomfortable all the time, and was being doctored, and taking all kinds of medicine to no good purpose, until at about the time when I was fired out and somewhat disgusted and al most discouraged with medicines and doctors, relative and highly-esteemed friend persuade me to try Hunt's Remedy. Mr. Little of Muscogee, offered the follow-ing resolution which was adopted by a unaning resolution which was adopted by a unanimous rising vote:

"The house has heard with profound sorrow the announcement of the death of associate justice, Martin J. Crawford. In common with other citizens, we feel that the state of Georgia has been deprived of the services of a valued public officer, who in the various places of confidence and trust confided to his keeping, regarded first the honor and prosperity of the commonwealth.

and prosperity of the commonwealth.

It is meet and proper that this branch of the state government should give formal expression of the high estimation in which the deceased was held and pay that respect to his memory which his public worth deserves.

Wherefore

Be it resolved, That as a mark of respe to the memory of the deceased, this being the day of the funeral obsequies, that this bouse do now adjourn till 9 o'clock a. m. on Wednesday, 25th of July.

Secretary Harris sported a handsome ton\*hole boquet yesterday.

Senator Thompson is back again at his post

after a short visit home, and again occupies his seat with his usual punctuality.

Some energetic and enterprising tobacco firm yesterday distributed neatly arranged boxes of tobacco and advertising fans among

he senators.

Senator Jones of the 43d is one of the bes posted, on state matters, of the senators. His arguments show careful study and are characterized by a clearness and force, interesting

as real, as convincing.
Senator Frederick of the 13th is always at his post, and listens attentively to the business before the senate. He is always alert in the interests of his constituents and certainly faithfully executes the trust re-

posed in him.

Senator Tutt's bill on illegal employment of servants came up for a third reading yesterday, and met with some opposition, and several amendments were offered to the bill. The senator in advocating its passage said "that he believed if he introduced a bill containing the ten commandments, that the senator of Georgia wouldn't be satisfied until ate of Georgia wouldn't be satisfied until every section was amended."

JUDGE CRAWFORD'S SUCCESSOR.

ome of the Candidates Who Have Been Mentioned to Fill the Vacancy.

The death of Judge Martin J. Crawford makes a vacancy on the supreme court bench that will be filled by an election before the legislature. Although the time has not been fixed the candidates are coming to the surface rapidly. While it is not officially stated the following gentlemen have been mentioned very prominently by their friends in the legislature and in the state as condidates to fill the lature and in the state as condidates to fill the vacancy: Judge George Hillyer, Hon. Mark H. Blanford, Hon. C. D. McCutchen, Judge Wm. M. Reese, Hon. W. S. Bassinger, Judge Richard H. Clark and Judge E. H. Pottle. It is certain that there will be others in the race and it bids fair to be a lively campaign. The legislature will doubtless fix the day for the election as soon as the law will admit it, that the court can be properly organized and the business be got in hand. The new judge elected by the legislature will have to arrange his business matters so as to lature and in the state as condidates to fill the the whole bill contrary to public policy and that it put a premium on rascality.

Mr. Humber also offered an amendment to the fourth section, so that injury must be proven before a conviction for misdemeanor could be had. Mr. Humber's amendments were lost.

ment that the act should not go into effect as long as there is a system of inspection of fertilizers in this state. Lost.

Mr. Ray moved to make the bill, the second special order for Wednesday and said he did so because there were many members absent Mr. Garr.

of Georgia. Judge Crawford no doubt lost his life in performing the laborious duties of his office. Other members of the court have been in feeble health, resulting from their close work. There is no judge in the United States worked any harder than the judges of our supreme court.

JUDGE RICHARD H CLARK SUGGESTED.

ATLANTA, GA., July 24, 1883.—EDITORS CONSTRUCTION: While it may seem premature on account of the recent death of Judge Crawford to advocate the claim of any one as his successor on the bench of the supreme court. by no means the most important legislation before the house. He saw no reason why it should receive such special deference. If the friends of the bill find themselves in a minority now, let them make the best of the situation. The motion was lost.

Mr. Ray said he had not intended to speak again on the question, but he felt that it was of grave importance to the chief interest of the state. Mr. Ray spoke of the frequent frauds practiced on the farmers by the vendors of fertilizers, and urged the necessity of better protection of the farmers.

Mr. Reese, of Wilkes, asked if the gentle-

would be the proper man to fill this vacancy, it is with pleasure that I take the liberty of suggesting his name to the legislature. I do this on my own motion and unknown to Judge Clark. That Judge Clark is eminently Judge Clark. That Judge Clark is eliminately qualified to fill the position will not be questioned, and I do not hesitate to say that in my opinion his election would give general satisfaction to the people wherever he is known, and will meet the approval of the bar

of the state. Ludge Clark is an eminent jurist, a man of gJudge Clark is an eminent jurist, a man of great learning, a finished scholar, and a gentleman of unquestioned honor and integrity, and his private, as well as public record, is irreproachable. Having been ctosely associated with him for years, I can speak from personal knowledge as to his character and ability, and it is with pleasure that I give expression to my views in regard to his qualifications. For many years he has devoted his time and talent to the public service for four years lacking a few months, he vice, for four years, lacking a few months, h presided as judge of the suprerior court of th Albany circuit, and he is now judge of the ity court of Atlanta, which position he has

ably filled for the past seven years.

In my opinion the legislature could do no more graceful an act than to unanimously elect him. His promotion to the position as ssociate justice of the supreme court at this ume would give great satisfaction to his riends throughout the state and strengthen bench whose decisions are honored and re pected whenever quoted.

I throw out these suggestion, Messrs. Editors, with the hope that the legislature will see fit to entertain them. Respectfully.

FULTON.

THE CONSTITUTION,
Atlanta, Georgia,

ATLANTA, GA., JULY 25 1883. INDICATIONS for the South Atlantic states, fair, followed by partly cloudy weather and local rains, west winds, stationary or lower

barometer.

THE Western Union, in offering a reward for the conviction of the party who shot into the Atlanta office, is endeavoring to magnify a very little thing. Such an accident might have happened any day without more than a passing notice.

THE death rate from cholera in Egypt is now considerably over five hundred daily The disease has attacked the British camps It seems to defy all efforts at limitation, and steadily seeks new territory. The yellow fever is bringing along the Gulf coast of America, and altogether sanitation seems to be the first duty of the people.

ONE week from to-day the exposition at Louisville will be opened with impressive ceremonies. The president will lend his presence to the occasion and a distinguished com pany will be gathered to take part in the pro ceedings. Louisville has worked zealously for success of the enterprise, and no city wishes her better reward than does Atlanta.

#### OVER-ZEALOUS CLERGYMEN.

The Right Hon. W. E. Baxter, M. P., has been traveling in India and has written an interesting account of his travels. On the subject of missionaries he says: "Nothing so much impedes the progress of Christianity in that country as the proceedings of certain High Church dignitaries who so thoroughly mistake the doctrines of our most holy faith, and misrepresent the teachings of their Divine Master as to treat clergymen of other denominations as beyond the pale, and very much on the level with the heathen. Hindoo inquirers ask if it is not true that a certain bishop says that the difference between Pres byterians and Episcopalians is fundamental. This complaint can well be made in ou country, for we know no argument that the infidel resorts to so quickly as the one that Christians quarrel among themselves about the way to Heaven. This grows out of a desire on the part of some of our ministers to advertise themselves as a good preacher or to get up their reputation as somewhat peculiar at the expense of their religion. It generally comes from a narrow minded bigot, and we are gratified the num

ber is small in our state. An instance in point comes from a repor of a sermon preached in this city last Sunday by a man who pretends to be too good for this world. He had failed to get some local puff and became incensed at newspapers in general. Nothing was too mean to use as abuse for them. He was considering the propriety, he said, of having them banished from his home for fear he would be tainted, and rising in his puny might, this would-be face of God than to put some things in the newspapers he had to read.

A minister of the gospel who would use such blasphemous language as is quoted is just the hypocrite who will scour the newspapers for vile stuff, and then get up before the public in his pulpit and call public attention to it, to try and prove his purity.

The world is too full of sin for preachers to quarrel about the road to Heaven, and it will be far better for the cause of religion if the minister will confine himself to the sinners before him than to go out and hunt a newspaper that he wants to denounce because it failed to puff his preaching or had refused to underwrite his religion. We would sooner take the chance of the vilest sinner in the audience than a minister of this kind.

ENCOURAGING NATIVE ART IN GEORGIA. The preliminary action of the legislature in the matter of securing a portrait of the late Senator Hill has had a more far-reaching result than perhaps the resolution contempla-.The resolution appropriated one thousand dollars to be paid for a portrait of Mr Hill which would be acceptable to the spe cial committee appointed for the purpose o carrying out the desires of the general assem bly. It is very certain that the legislature will secure a good portrait of Mr. Hill. Its offer has been the means of stimulating a spirited but generous, rivalry among our native ar tists and others. It has also been the means of demonstrating, to some extent at least, the growth and development of native art.

The competitive exhibition in the hall of the Young Men's Library is not only interesting as a collection of well painted portraits of a distinguished Georgian, but it possess another, and, in some respects, a far more significant interest. It shows that Georgia is making satisfactory progress in the direction of art culture. It shows, moreover, that we have among us a body of young artists of special gifts, who promise to do for Georgia what New England artists have done for that sec

It is true the Hill exhibition is not a re markable one as to numbers, but it is a very remarkable one as to the artistic merit of the pictures. Ten years ago it would have been impossible to gather together such a promis ing collection of native art in the direction of portrait painting.

The legislative resolution has not only encouraged the painting of a desirable portrait of Mr. Hill, but it has encouraged native art. The appropriation has therefore served a two-fold purpose. Now that the Hill portrait has been selected there ought to be a similar appropriation made for a portrait of Mr. Stephens,

and then an appropriation for a portrait of ex-Governor Jenkins, and an appropriation for a portrait of Judge Crawford. In the new capitol the state will build when the time comes there will be room for portraits of every one of the state's distinguished dead, and it is fortunate for the state and the people that these appropriations will serve the double purpose of securing good portraits and of encouraging the small but vigorous body of native artists which is constantly

growing larger and stronger. The selection of the portrait by Mr. Horac Bradley is not alone a compliment in itself, but derives its significance from the fact that he stood first among such able, competitors. Mr. Bradley is a young man, earnest in nature, industrious in habit, and wholly devoted to his art. He has before him a bright career.

#### MR GOULD'S PURCHASE

Deacon Richard Smith, and his colleagues in the Cincinnati Commercial Gazette, seem o be well nigh distracted over the charge nade in the Dorsey "budget" that Mr. Jay Gould purchased a seat on the supreme bench of the United States for Stanley Matthews, the consideration being a contribution of one hundred and fifty thousand dollars to the republican campaign fund. It will be remembered that this charge is only casually made in the Dorsey budget, and it is mixed up by the reporter who prepared the document for publication with matters to which it bears no definite relation: for instance, with the bill known as the Thurman law, which had already become a law and received the sanc tion of the supreme court. The Commercial Sazette dwells on the irrelevancy of this alusion with the vigor of genuine uneasiness and returns to the subject every day or two, exhibiting the strenuous persistence which Mr. Romeo Reed brings to aid him in his truly eloquent attacks on the supposititious genius of Shakspeare.

This is very queer, but it is not queerer than the defense which the Commercial Gazette is driven to make. That defense is a model of republican logic. The beginning, the middle and the end of it is that the charge is in the nature of an attack on a dead man, and should not, on that account, be tolerated by a high-toned and sentimental press. This defense is a fraudulent one to begin with. It is a subterfuge and a very despicable one. For several months now the republican party has been hiding behind Garfield's tomb, and dodging under the remains of his catafalque, and the time has arrived when decent people would be glad to see it stand up and assume some of the responsibility of its corruption and dishonesty, instead of insinuating that Garfield is responsible for it all. The party cannot escape the responsibility for its acts by hiding in the graveyard

in which Garfield is buried. It is not true that the charge of a sale of a eat on the supreme bench to Jay Gould is in any special sense an attack on the memory of Garfield. It is no more an attack on his memory than it is an attack upon the memory of any other modern republican. It is an attack on the memory as well as the presence of the republican party as it exists to-day. It is an attack upon every republican who has lent his aid or given his consent to the corruptions by which his party carried the country in 1876 and 1880.

So far as the sale of the seat upon the supreme bench is concerned, Mr. Garfield was no more responsible, one way or another, than the twenty or fifty-odd republicans who were consulted in regard to the matter, and who advised their candidate to make the pledge necessary to secure Mr. Jay Gould's corruption fund. This pledge was made only after consultation, and it was made with the knowledge and consent of every prominent republican whose name was even remotely connect ed with the campaign. So far as the defense and denial made by the Commercial Gazette pious man said he would rather spit in the are concerned, lame as they are, they come too late. For months the charge has been specifically made in one of the most active and vigorous republican organs in the countrythe organ of the administration. From hints and statements in that organ, the public has long ago been put in possession of all the important facts relating to the purchase of Stanley Matthews's seat on the supreme bench

by Mr. Jay Gould. As a matter of course, the administration organ, being a stalwart affair, made some atempt to attach the odium of the transaction to Mr. Garfield, but that unfortunate man was no more responsible than Conkling, or Dorsey, or Gorham, or Arthur, or any other leading republican to whom the facts were known. What are these facts? Why, just these: That Mr. Gould, being a republican, Was approached and asked to contribute to the republican campaign fund; that he intimated a desire to make a substantial contribution provided the nomination of Stanley Matthews to the supreme bench should be renewed by Mr. Garfield; that Mr. Garfield was advised to make the necessary promise; that Mr. Gould desired a written pledge; that Mr. Garfield was advised to frame the pledge that Mr. Whitelaw Reid carried on the ne gotiations between Mr. Gould and the republican leaders, that the documents relatng to this shameless sale of the people's

rights are in existence. Now, then, if these things are mere inventions of republicans, the fact can easily be es tablished; if they are true, the Commercial Gazette fails to help its party by whining about the memory of Mr. Garfield. If they are the mere inventions of republicans, Mr. Gould and Mr. Whitelaw Reid would have disposed of them long ago. We advise Deacon Smith to open up a cipher correspondence

with the editor of the New York Tribune. THE melon growers of southern and southwestern eorgia seem to be satisfied with results. SENATOR JONES ON IRELAND.

From the New York Herald.

"Yes, I have been in Ireland," said Senator Jones of Florida, in answer to a Herald reporter's question. "For the first time since I was a child I went back to see my old home in Balbriggau, a fine little town about twelve miles from Dublin. I found Ireland far more beautiful than my early recollections led me to expect."

"And its people? I found among them a strong, deep and seemngly unquenchable desire for local self-government, such as the Canadian people have. The feeling is thoroughly national, and, whatever differences may exist as to minor political matters, I believe that Ireland is eager for home rule. The people talk earnestly about their plans, and I failed to see any evidence of disorder in the portion of the untry which I visited. There was no more lawssness or crime than in other countries."

"Was there any great destitution among the "To tell the truth, I did not go to the section where the suffering was said to be greatest. But when I was in Dublin the late Father Tom Burke left his sick bed to address a meeting in the cause of charity, and I took this last occasion to hear the famous patriot priest of whom I had read so much The assemby was a very large one, but I could not ick and only spoke a few earnest words, full of enderness and feeling. He declared that in the western portion of Ireland in one district there were 5,000 little children dying of hunger. state of Ireland?"
"Well, I'll tell you one thing. I saw south of Dublin immense tracts of magnificent farming land which had apparently been cultivated once, but are now used as pasture. The fences were down and the fertile fields were abandoned to nature and the cattle which grazed upon them. I wondered how the people along that section could support themselves when so little of the land was devoted to the cultivation of breadstuff. I was told that is was the direct result of evictions of tenants addords. I really cannot see how it is that Irelan annot support a larger population when so much the finest farming land t ever saw is lying waste and almost useicss."

## WESTERN UNION CAPITAL.

From the New York Times.

If there be any provision in the statute or com non law of the state of New York for compelling the Western Union Telegraph company to put an end to the enormous injury it is inflicting upon the usiness community by its refusal to propose any djustment of the claims of its employes, it should be applied. If the injury be allowed to go on ch longer, an effort will undoubtedly be made o secure a decision of that question, and, if the aw permit, a compulsory settlement of the difficulty. Meanwhile, the company's officers must see that the sentiment of the 'great body of the pubtic is one of indignant condemnation of their course. The action of the telegraphers has, so far, nurse. The action of the telegraphers has, so far, ten strictly legal and by no means extreme or unasonable. The petition presented to the company as moderate: no ultimatum was announced; no reat was made; the way was not closed to a company, and the company fladly refused to pay the ighest attention to this petition, and not only igned the committee through which it was present, but declared the intention of breaking up the kanization by which alone its employes could ope to exercise any influence on the company; the legraphers left their work; but they do so in a perfectly orderly manhope to exercise any influence on the company; the telegraphers left their work; but they did so in a perfectly orderly manner, and they have conducted themselve since in a law-abiding, self-respecting way which speaks much for their intelligence and character. There has been no dictation, no attempt to interfere with the property of the company, and there has been not the slightest intimidation of any one who sought to take the place of a striking telegrapher. The strike has been free from every one of the objectionable features which usually mark strikes. It has been simply a fair, straightforward effort to get what the telegraphers have thought was just. It has won, and deserves, the respect of all fairningded men. all fairminded men.

On the other hand, the company which insolently and arbitrarily refuses to even consider the propositions of men who were just as much entitled to present their claims as the company was to put forward its own, has been guilty of frequent and outrageous violations of its obligations to the community. It is a well-settled principle of equity, and to a great extent it is a principle of law, that corporate franchises carry with them the obligation to exertise them for the greatest general advantage consistent with a fair profit upon actual capital and expenditure. That principle has been steadily, openly and defiantly violated by the Western Union corporation. It is to-day, by a subterfuge which is in effect and intent a deliberate

contempt of the courts of the state, paying a divi-

company, ou which it pays a 6 per cent dividend, has been swollen by a series of inflations of the most transparent and unjustifiable character. Commencing in 1838 with a paid-in captain of less than \$400.000, there were script dividends in that year of 447.7 per cent; in 1862 there was two there of 27.26 per cent; in 1863 there was two more of 133.33 per cent, bringing the nominal capital up to \$7.980,700. In these five years the company had apid all excesses of operation and extension of apid all the property of the company had company had so that the property of th

That a company thus ms aged should inflict incalculable injury on the buness of the country in order to keep its employes absolute servicude to its arbitrary dictation is siply monstrous, and the unchecked perpetration such an outrage is a serious stain unon the justion of the government under which we live.

#### THE HILL PICTURE.

The Committee Decide on the Painting by Mr. Horace Bradley, of Atlanta The contest for the painting of the picture of Senator Hill was settled yesterday by the selection of the picture painted by the distinguished young artist, Mr. Horace Bradley. The committee met i

the library in the afternoon and spent a while is naking an examination of the pictures. The mem pers of the committee had already at different time visited the library and examined the pictures in every possible manner, so that there was really but ttle to do further than to make a last and mo critical examination. The following gentlemen emposing the entire committee were present; Sen itors Jones and Hughes and Messrs. Drewry, Key nd Hulsey of the house.

There were the following pictures entered for the ntest. A half size bust paintingiby Mrs. J. R. Greg ory, a full size painting by Mr. Bradley, three pic ures by Mr. J. H. The sen-ator is represented with great accuracy as he appear-ed on many occasions while addressing the senate. He stands by his desk, which is represented with absolute accuracy, and he appears to have reached a high point of eloquence in his speech. After the decision was made a Constitution man asked Mr. Charles Hill what he thought of the selection of the picture. He replied:

"If you care to say anything you may say that we all consider it a very fine picture and are entirely satisfied with the selection."

The picture will be ready to hang in about a month. The legislature will be in session at that time and as the Hill memorial services have not taken place yet it has been suggested that the unveiling of the picture be made a part of the ceremonies.

GEORGIA'S NEW INDUSTRY.

The Garden Truck Business and Its Profits.

ATLANTA, July 22.-The garden truck season, no

bout two-thirds over, has been one of remarkable naracter, and is likely to lead to a great increase o production and a widening of the territory supplied ext year. For several years the melon crop of the avannah valley and the counties along the Florida ne found a market in a few cities of the east and west, but failed to win the general at tention of shippers. Early in the present season Mr. H. W. Grady, a well-known correspondent, wrote for THE ATLANTA CONSTITUTION TION, a series of letters from the fields, in which he indicated the wonderful capabilities of souther; Georgia. The result was to draw the attention of the railroad authorities to Lowndes, Brooks, Thomas and other counties as a territory in which to secure freights. Through the efforts of these companies a market was opened up in Omaha, Kansas city, and interfor towns in Iowa and Minnesota, and many points in the east, where before melons were a rarity. On cucumbers, onions, &c., immense profits were realized, for the first time. People began to realize the value of their lands, prices having gone up from \$5 to \$50 an acre. Only on potatoes was there a failure, and this can be avoided next year by an intelligent selection of markets Mr. Joseph M. Brown, son of Senator Brown, for eight years superintendent of the Western and Atlantic road, devised a system of telegrams by which a shipper in Lowndes county could direct the destination of his produce at any point along the route. This with daily quotations of prices in all truck centres enabled him to control his shipment to the best advantage. Up to the present time there have been shipped from Georgia over 4,000 carloads of melous, only ½ of which went cast. It is estimated that 2,500 carloads more will as and other counties as a territory in which to ent time there have been shipped from Georgia ove 4,000 carloads of melous, only ½ of which wer east. It is estimated that 2,500 car loads more wit complete the stock to be shipped. A Happy Marriage.

The residence of Mrs. R. L. McCollum, at 23 Yonge street, was the scene of a happy event last night, the occasion being the marriage of Miss Alice McCollum, a most charming young lady, to Mr. Joe C. Tuggle, of the car accountants' depart-ment of the Georgia railroad. A number of the imment of the Georgia railroad. A number of the immediate friends of Mr. Tugale and Miss McCollum
assembled at the residence at half past eight to witmess the ceremony. A few minutes after that time
the happy couple entered the parlor where the
guests were assembled, and in a deeply impressive
manuer the ceremony was performed by Rev. Virgil
Norcross, pastor of the Fifth Baptist church. The
bride appeared very lovely in a beautiful white
buttoman silk trimmed with orange blossoms and
walls and wasning a weath of crosses blossoms and ulle, and wearing a wreath of orange bloss The occasion was a very enjoyable one to all who were there. Mr. Tuggle is well known in Atlanta, und has many friends who congratulate him upon ecuring a bride who is so charming in every way, and who is so well fitted to make his home happy.

THERE seems to be quite a competition between the lines between Atlanta and Asheville and the traveling public is enjoying the benefits. The Asheville Citizen says: "We alluded in the last issue to the through Pullman car train from Atlanta to Asheville via Salisbury, and the good time made. It is now our pleasure to mention the arrival of another through Pullman car from Atlanta by way of Knoxville and the Warm springs, arriving the same day, this time under the excellent management of Mr. S. H. Hardwick, southern traveling agent of the Eastern Tennessee, Virginia and Georgia road. This train left Atlanta Monday at 11:40 p. m., via Western and Atlantic railroad, and come into the Asheville depot promptly on time ruesday at 5:54 p. m. This oringing Pullman cars through from Atlanta to Asheville without change is a most important fact, and speaks volumes for the future travel from the south to our city. It is this same company which is running whole through trains from Louisville to the Warm springs. We trust such enterprise on the part of the several lines running into and towards this section, may continue to grow. We were pleased to meet Mr. Hardwick and hope he may have occasion to visit our city frequently under such circumstances."

A committee was then appointed, and in the course of a few minutes the subscription was sufficiently large to insure the completion of the road. Surveyor Wells informed us that the work would commence as soon as the charter could be obtained. McNutt will be the first station on the

#### Improvements on the Air Line.

The Air-Line road bed between here and Atlanta, has been vastly improved lately, and is now in excellent trim. Almost the entire length of the line is now ballasted, only a few gaps remaining to line is now ballasted, only a few gaps remaining to fill. Captain Lane, who has charge of the Charlotte division, has completed the ballasting from here to spartenburg. The rocks used for the purpose are blasted out of the side of King's mountain, and are as white as marble. The two rails laid in their white, rocky bed, look pretty as they string out before the vision. The whole line is now haid in new, steel rails, and is a splendid track. All the stations along the Air-Line are neatly white washed, and the wash is renewed every three mouths, making the handsome little depois and adjoining houses present a bright, fresh, pleasing appearance. The Air-Line has more style about it than the Riehmond and Danville.

#### Two Months of Sunday Observance.

Two Months of Sunday Observance.

From the Railway Age.

The two months which have passed since President Young issued an order forbidding the running of Sunday trains, except those carrying mail, on the Louisville, New Albany and Chicago railroad, have been the most prosperous of any in the history of the road. President Young recently telegraphed: "Our June business has been larger than ever before, and the aggreate earnings the largest on record." While the experience of one railroad for two months is by no means conclusive of the question at issue, yet it certainly tends to refute the position taken by so many managers that a single railroad or a portion of the railroads of the country cannot afford to cease Sunday was the sunday boservances is not practicable unless all railroads unite in it. The Louisville, New Albany and Chicago road have discontinued Sunday traffic and has increased its business, and there is no indication that its earnings for May and June are \$1 less than they would have been if its employes had been worked seven days in each week.

Lumbermen Before the Railroad Commission.

There was a regular meeting of the railroad com-mission yesterday, Governor Smith, Major Wal-lace and Colonel L. N. Trammell, a full board, being Most of the session was occupied in the hearing of Most of the session was occupied in the hearing of the case of the lumbermen against the Albany and Western railroad. The cause of their complaint is found in circular No. 37 of the commission which is to go into effect on the first of August. Last fall the commission issued a circular in which the tariff on class P, including lumber, was fixed. In that circular all the roads were placed on a common basis. About a month ago the Albany and Western obtained the circular No. 37, which allows it to charge ten per cent more on lumber tariff than the Central, the Savannah, Florida and Western and other lines interested in the lumber traffic. Of this the lumbermen complain and their case was stated before the commission yesterday.

and their case was stated before the commission yesterday.

The claim of the lumbermen was to the effect that they have but two markets, Brunswick and Savannah, and that to reach either of these they are compelled to pay ten per cent more freight than their competitors on other railroads. The Albany and Western authornies claim special consideration on account of their heavy grades, and also because the roads leading to Savannah haul freight both ways on their flat cars when they are compelled to send empty flat cars to the lumber region. The case of the road was put by Mr. Moss, the general manager, and by its attorneys, Goodyear and Kay, of Brunswick. The lumber men were represented by Judge Tompkins, of Atlania, and Judge Pope, of Brunswick. Mr. Tift and Captain Weston, of Albany, who are among the leading lumber men along the line of the Albany and Western, were examined. They ask that circular No. 37 be recalled, and that they be left on the same footing as their competitors along the line of other roads. The case may be decided to-day.

A great deal has been s-id of their artistic merit CROSS-TIE GOSSIP IN AND OUT OF of their inartistic defects, and as yet no one who knew Mr. Hill, or who pretends to artistic culture, is fully satisfied with these reproductions of our grand statesman. Some critic hath said the true critic points out the defects, and the beauties will take care of themselves; that there are some few beauties and many glaring defects in the execucare of themselves; that there are some few beauties and many glaring defects in the execution of these portraits, is unquestionable; and that as works of art, should be, (trespective of personal favor or tiliberal prejudice) treated, as such, sparing neither friend or foe, being responsible only to God and truth for a just and impartial criticism. Besides, the committee whose work it is to decide the artistic merit of these several specimens, should be in no hurry to conclude so important a matter. It involves a far more serious question, than the mere passing of a compliment on some one or other favorite artist, and giving him or her the sum appropriated by the legislature, for such a distinguished and important purchase. It involves not only, and forever, the artistic culture and ability to judge of high art, of this honorable committee, but is a grave matter of state pride, to say nothing of the common love and justice due to the immortal Hill; that he shall be faithfully represented on canvass, as historical in feature and form, as his genius and patriotism are immortalized in word and pen, and deed. If it is a work of love on the part of our state; an act of honor and reverence and justice to the memory of Georgia's peerless son, for Senator Hill—sake—for Georgia's sake—for the sake of true art's and for posterity's, let it be faithful to life! Let the canvas glow with life—breathing, speaking life, burning with genius, palpitating with patriotism, and thrilling with the eternal truths he taught. We are sorry to say, that—while there are some striking resemblances, there is not one, perfect Ben Hill looking out from the canvass of the whole collection.

are sorry to say, that—while there are some striking resemblances, there is not one perfect Ben Hill looking out from the canvass of the whole collection.

The committee have plently of time to do this gravely important matter justice, even though they postpone their decision several months, giving other artists who are master-hands, time to complete their fill portraits which are unfinished,—so deeply have they entered into the work and-so devotedly determined to produce a perfectly historical picture in every feature, characteristic, and detail, thus rendering a magnificent whole, that Georgia may be justly proud of. Verily, it can be no injustice to these worthy and in many points gifted amateurs, who have exhibited these portraits; they will even be benefited by time to touch up and improve their present specimens; and fruly, the grand old senator is entitled by every tender and heroic claim, to this justice! He, even, would laugh to see some of these well-meant carleatures of himself. There are some choice bits of color; some artistic compositien; some power of execution, and rare conception, but there are hundreds of unpardonable defects plain to an artistic eye, and which a candid and boutest critic would not hesitate to condemn. But to other here, into a critical review, in arristic detail of each pleture, and the perhaps be considered the exclusive work of the committee; nevertheles, the public shall see and those who know Mr. Hill best, should be the competent judges, and those very persons are quick to declare there is not one perfect Ben Hill there. And what Georgia wants is a true Ban Hill and no other will suffice the heart of Georgia, though a thousand committees commit the blunder of accepting either one of these portraits. If they have made a mistake in the manner in which the whole matter has been managed and indiscreetly placed themselves under some obligation to the competing arrists, they nevertheless have no right to expend the state's money for inferior work. NEW YORK, July 24.—The stock market to day presented few features of interest. In the first hour of business Canada Southern broke 2½ per cent to 5½; Denver and Rio Grande 1½ to 37, the decline in the remainder of the list, however, being unimportant. Towards midday there was a recovery, and e market displayed some strength. Missouri Pacific was in fair demand, and rose 11/2 to 1001/2, while Canada Southern recovered 11/4 to 551/8, and Denver and Rio Grande 1 to 38. From this time until 2 p. m. the market was dull and firm. After this hour Wabash preferred fell off to 381/2, the lowest point of the day, and the general market weakened in sympathy. In the final dealings a much firmer tone prevailed, and many shares closed within a fraction of the best of the day. Compared with last night's closing, Burlington and Quincy, St. Paul, Lake Shore, Michigan Central, Missouri Pacific, Jersey Central, New York Central, Northern Pacific, Omaha, Union Pacific, Wabash preferred, and Western Union were 1/2 to 5/8 per cent higher, while Northwest, Canada Southern, Denver, Louisville and Nashville, Kansas and Texas, and Texas Pacific

1/8 to 1 per cent lower. In specialties, Richmond and Danville, after breaking 6 to 66, rallied to 68. Transactions 218,000 shares.

The local cotton market is extremely quiet and dull, and but little interest is being manifested in in the market at present. The appearance of the cotton worm and the protracted drouth is the subject of some comment now. We quote spots as follows: Good middling 9%c; middling 91/6; strict low middling 91/40; low middling 90; strict good ordinary 81/c; good ordinary 73/c; ordinary 7c: tinges 9c; stains 6@8c.

NEW YORK, July 24-The Post's cotton market report says: "Continued reports of injury to the crop by drouth in North and South Carol na and Georgia; also by worm in Alabama, with additional news of the appearance of boll worm in some points in Texas, have cau ed an improved demand for future deliveries. Prices advanced 4-100 for August and 6-100 for the later months, but in consequence of large offerings part of the advance was lost, and at the third call only 200 ba'es October were sold at 9.93 and 100 bales January at 9.94; July was offered at 10.07, August and September 10.07, No vember 9.85, December 9.86, February 10.05, March i0.17, April 10.09."

This cut represents my IMPROVED COTTON CONDENSER, patented September 17, 1878, and re-issued June 8, 1880. My patent covers a perforated cylinder having closed heads, with a door therein, through which accumulations may be removed from the interior of the cylinder, and a casing arranged above and below at the ends in such a manner as to close the periphery of the cylinder to prevent the escape of dust and lint into the room, also sides and bottom openings, as specified in the patent, and is the only Condenser made that will allow a free action of the gin brush in straightening the staple, thereby making a fine sample, and that removes all dust and foreign matter from the house in which the gin is at work, making a lint room as pleasant as a parlor, and is an absolute safe-guard against fire, thereby saving more than its cost in insurance every season that it is worked. All the leading Gin manufacturers have arranged to manufacture this Condenser in connection with their Gins, under a regular license from me, and will stamp the words "Patented September 17, 1878," on each Condenser so manufactured, and persons using Condensers constructed under proper authority, as above indicated, will be protected, otherwise they will be liable, as well as the person manufacturing and selling the same, from infringement of said patent.

I am prepared at short notice to furnish a Condenser of this pattern for any Gin made in America. It is so simple that by simply making the inlet to correspond with the discharge flue of the Gin it will work as well on one Gin as another.

SAM WALL SHOT AT.

A Mysterious Bullet Strikes a Well-Known Young Man, But Does no Damage.

Atlanta telegraph operators now engaged in the Western Union office are nervous. Their nerves were given a tremendous shaking up yesterday and each member of the fraternity is pondering upon the uncertainty of life and the advantages of a life insurance policy in some good convents.

and the advantages of a life insurance policy in some good company.

About ten o'clock yesterday morning as Mr. Sam Wall, the receiving clerk, was sitting at his desk he felt a stinging sensation in his left side, and at the same instant heard a noise like that made by a bullet striking a pane of glass. Wheeling to his left and throwing his eyes upon the large window which opens on Loyd street, Mr. Wall detected a round hole through one of the glass and instantly the idea presented itself to his mind that some one outside of the building had fired at him. The noise made by the ball passing through the glass was also heard by Manager Stephens and a half dozen operators, and when Mr. Wall yelled out "I have been shot," every man in the office was around him. A casual glance at the hole in the window convinced all pres-

been shot," every man in the office was around him. A casual glance at the hole in the window convinced all present that it had been made by a bullet, and an investigation of the matter was instituted by Manager Stephens. Captain Crim was hurriedly summoned and the case placed in his hands, but a careful and thorough investigation of the matter failed to elicit any additional light. No one could be found in the neighborhood of the telegraph building who had heard the report of a gun or pistol, and the conclusion was reached that the hole had been made by an air gun or parlor rifle. There are but three places from which the shot could have been fired and at neither one of these could any clue to the perpetrator be found.

The window is on the Loyd street side of

Through the department of agriculture the State agricultural society, the subordinate clubs this result has been brought about; sits with his left side to it. The glass is double plate and the bullet made a small round hole through it. An examination of Mr. Wall's person failed to reveal the point at which the ball entered his wearing apparel or even the whereabouts of the ball itself. Mr. Wall joined the brotherhood last spring, but when the operators went out on a strike he backed down, and for awhile he entertained the idea that the shooting at him was a card from the brotherhood, but the gentlemen deny any knowledge of the affair. Mr. Wall left the office yesterday at noon and after din-

ner sent Mr. Stephens a note, asking for a furlough the rest of the day. There were in the office, when the shooting occurred, Manager Stephens and operators Holcomb, Alston, Mauray, Stevens and Witt, and a number of Messenger boys.

COLORED JEALOUSY.

Big Row With Sticks, Knives, Brickbats and Other

Articles of Warfare. There was quite a row out in the first ward, near the old barracks yesterday afternoon. The participants were Lula Jones, Carrie Smith, Ed Marvin and Julia Marvin, all col-ored. The row occurred at Carrie Smith's home, on Humphreys street, and had its origin in jealousy. It appears from what can be ascertained that Marvin, who is married and who lives near the colored university, has been paying marked attention to Carrie Smith. This has been going on for some time past much to the chagrin and disapproval of Julia Marvin, his wife. Frequently she has advised her liege lord to abandon his visits to Carrie, but the advice was not accepted. Finally Julia became so angered that she determined to put s stop to the affair. Yester-day evening, accompanied by Lula Jones, she sought her rival's abode. There she found her truant husband and at once a war of began. In this battle Carrie took a leading part, acting as Marvin's champion. After words had failed to win the fight Julia made a dash at Carrie, but her husband in-terfered. This induced Lula to take a hand, and in a few seconds the quartette were en-eaged in a general row, in which a chair, a unife, a stick and a pair of sledge hammer ists were the weapons. The fight waged unnsts were the weapons. The light waged until Julia and Lula were forced to beat a retreat, and then the casualties were summed up. Carrie Smith received an ugly gash across her left breast and a stab in her right shoulder. Both wounds bled freely and were inflicted with a knife in the hands of the infuriated Julia. Lula Jone's scalp was badly cut by a blow over the head, while Mawin and his wife both escaped un-

#### AGRICULTURAL DEPARTMENT. Talk with Colonel Livingston as to its Work.

Will it be Abolished? The fight on the agricultural department, among the members of the legislature waxes warm and a heated discussion may be looked warm and a heated discussion may be looked for on the day of the consideration of the bills now before both houses for its abolishment. A bill was introduced in the senate by Mr. Baker, and has twice been reported unfavorably, by the committee on agriculture. It now lies on the table of the senate, and will be considered as soon as the joint committee on the inspection of fertilizers

make a report.

A representative of the Constitution met
Senator Livingston yesterday and knowing
his interest in the workings of the departent, asked his opinion as to the passage

"It will be overwhelmingly defeated," he said. "The people of Georgia know too well the uses of the department, and have receiv-ed too much benefit therefrom to take any such unwise step as to abolish it." "Why does this opposition to the depart-

why does this opposition to the department exist?"

"The principal reason is some supposed irregularity in the inspection of fertilizers. Another reason is that many imagine that it is a heavy cost to the state, and that its benefits no not could their expenses.

a heavy cost to the state, and that its benefits no not equal their expenses."
"But does it cost the state anything?"
"Why, no! not a cent, but on the other hand it placed in the treasury of the state during the last year, over and above all expenses, more than forty thousand dollars. The amount realized from the inspection of fortilizer for the last year. fertilizers for the last year was over sixty-three thousand dollars, and the expenses of the whole department were but a little over \$20,000. This is attributed wholly to the department, thus making it not only to the department, thus making it not only very beneficial to the farmers, but extremely profitable to the state. A great many believe that it is doing no good, simply because they don't know anything about it nor don't care to learn. They look upon it as theoretical and charge that it is "book farming," not knowing that all practical good must be founded upon theory."

"In what way has the department of agriculture materially benefitted the farmers of the state?"

"In many ways. It is an organization, and all determinations are official, and carry with

"In many ways. It is an organization, and all determinations are official, and carry with them more weight than mere heresay. For instance, if I wanted to know what was the best grass for feeding sheep, or the best food for cattle, I would much rather have it authentic, proved by experiment, and verified by experience, than to adopt current opinion, which on nearly all things, particularly of this kind, differs. Another great benefit is the literary productions emanating from this department; they have been varied and wonderful, and have given much information. "The Manual on the Hog." "The Manual on Cattle," "Poultry Breeding" and all such similar works issued by the department, have worked a wonderful good to our farmers. It is a fact that he knew nothing about them. The watch and chain and two of the rings were found to belong to Mr. Owen Carroll, from whom they were stolen some three weeks ago. The opera glasses, the breastpin and the ear rings were identified by Cora Howard, who lives at 17 Collins street, as her property. They were stolen from her residence Friday night last. The burglar attempted to enter the house at might and by a second glance the burglar found that she was asleep. This was a trump card for him, and drawing from his pocket a bottle of chloroform and a sponge he saturated the sponge with the fluid and held it just outside of the blind close to her none. While sleeping, she unconsciously inhaled the chloroform until she became stupe-fied, whereupon the thief opened the blind, and, pushing the bed aside, entered the room and secured the jewelry. how the lish interests of the state have increased during the past few years, how many hundreds of ponds have been built and stocked, and how many of our rivers have been filled, and all this is directly the work of this department. Of the monthly crop reports issued by the department, I need only point to the hundreds of farmers of the state who have derived so much benefit from them to verify the benefits.

The Fatal Eff.ct of Hair from the Hird Leg of a Cat-an Old Negro's Strange Malady-A Month Without Food or Utterance-Colored Ig-norance and Superstition-Etc.

Several weeks ago The Constitution pubished an account of the strange illness of Elsie Foster, a negro woman on May's alley, in the first ward. A description of the woman's malady was presented, and the declaration made that she had been "conjured" by an old negro woman who has made herself terror to the devotees of hoodooism in Atanta. When the officers visited the woman's home immediately after the appearance of the malady and found that her friends claimed that she had been "conjured," they instantly left in disgust. During their presence they were apprised of the fact that the woman could not talk, and were greatly amused at her incoherent utterances. That was nearly month ago, and still the woman's condition has not changed. From daylight until dark and from dark until daylight again the woman lies upon her bed an immóvable and almost life-less body. Her eyes are always open and fixed with a steady gaze upon the ceiling, Occa-sionally her hands go up to her forehead and as they do she moans as though enduring the greatest pain. She positively refuses to talk f talk she can. Since the day she was seized with the strange illness she has not closed her eyes one moment. But the strangest part of the story is her total abstinence from food. Not one mouthful of food has passed her lips for nearly a month and yet she does not seem to have fallen away one ounce. The woman's neighbors all declare that she have a "confirmal" but the all me that she has been "conjured" by the old wo-man who bears the reputation of being the only successful "conjurer" in Atlanta. The "spell," as they call it, was occasioned by the bottle in which there was water and a half dozen hairs. These hairs con-stitute the power of the charm, and are supposed to have been pulled from the right hind leg of a cat, which the "conjurer" turned loose as soon as she secured what she wanted. The only cure for the "spell" is the capture of that cat, and as the particular cat is known to only the "conjurer," its capture seems almost impossible. The hus-band of the afflicted woman has offered the "conjurer" \$50 for the cat, or to have the ' removed, but with a peculiar persistv she avows she has had no hand in the affair. This declaration none of her acquain-ances credit. They all declare she never ad-nits anything of the kind. In vain hopes of zetting the right cat about fifty members of the feline tribe have been butchered in that part of the city recently, but the death of none has removed the spell. A cat cemetery in the first ward is the result. The cure of this mysterious malady will make some At-lanta physician celebrated.

#### A BOLD BURGLAR BAGGED. A Darkey Whols Astonished at What the Police Find In the arrest of Charles Johnson alias

Charles Baldwin yesterday morning, Captain Bagby thinks he has succeeded in removing from the public disturbance one of the bold-est and most successful burglars in the city. Johnson is a good-sized negro, and always travels in good style. He has always been exceedingly polite to his white acquaintances, and in this way won many friends among them by whom he was thought to be above suspi cion. Even the police, while they were aware Johnson never worked, regarded him in the light of an honest darkey until a few days ago, when Captain Bagby accidentally or in his mind. Following up the clue, ch indicated that the entire police force had been mistaken as to Johnson's character Captain Bagby continued his investigation until yesterday morning when the arrest was made. With his well-known politeness Johnson submitted to arrest declaring that an investigation would prove the captain's mistake, but when Johnson's room was searched a fine gold watch and chain, several gold rings, a pair of opera classes, several fine handkerchiefs, a breas pin and a pair of coral ear-rings, were foun hid away carefully in the room. Whe these things came to light Johnson professe

to be greatly astonished and de-clared that he knew nothing about them. The watch and chain and two of the rings were found to belong to Mr. Owen Carroll, from whom they were

COUNCILMEN ON THE BENCH. A Triangular Police Court Created by a Force of Cir-

Yesterday morning there was an unusual occurrence in police court. In fact one such as has never occurred before in the history of as has never occurred before in the history of Atlanta. It was the dispensing of justice by three members of the council instead of the recorder. The law provides that the mayor shall preside during the session of the police court in the absence of the recorder. In the absence of both recorder and mayor, then the mayor protem, who is always the senior member of the aldermanic board shall preside. But in the ldermanic board, shall preside. But in the absence of all three of these officials, the law provides that three members of the general council shall act as "associate judges" of the police court. Yesterday morning Recorder
Anderson was busy with other duties, Mayor
Goodwin was otherwise engaged and Alderman Lowry could not leave his bank, so three
members of the council were pressed into service by Chief Connolly. They were Messrs Gray, Dunning and Day. The three gentle-men occupied three chairs arranged behind the recorder's desk. Mr. Gray sat in the middle, while Mr. Day acted as his right bowe and Mr. Dunning as his left bower. The action was a unit throughout the court, and nearly \$100 was realized during the session.

## TESTIMONIALS.

Only 13 Seconds in 3 Months. J. P. STEVENS WATCH CO.—Gentlemen: It affords me pleasure to say I have worn one of your watches eight months, and although I have carried the finest watches made by other American factories, never had one to keep the almost absolutely perfect time that the Atlanta watch does. Its variation during the past three months has not exceeded 13 seconds, considering the fact that it is employed in rough railway service. I think this record has few equals, in fact I would not give it for any other watch I ever saw, and think that it will supercede all others for railroad use. Yours truly.

H. Z. HARRIS, Conductor R. & D. R. R.

"He flad Tried Them All." "He flad Tried Them All."

J. P. STEVENS WATCH CO.—Gentlemen: After testing very critically the watch I got of you, I have pleasure in saying that for accuracy and reliability, it far surpasses my expectations.

I have worn the finest watches made by the most celebrated factories in this country, some of them costing three times as much as my present one, but never had anything that was near as accurate as the one gotten of you. I never have changed the hands since I got it three months ago, and it runs from one month's end to another without any appreciable variation.

Respectfully yours,

T. B. PALMER.

The Northwest Heard From.

APPLETON, Wisconsin, April 23d, 1883.

J. P. STEVENS WATCH CO.—Gentlemen: The watch I bought of you is doing well. I set it by standard time in Milwankee, 16 days ago, and have been comparing it with one of the best regulators, as yet I cannot discover that it has varied even the fraction of a minute.

Yours respectfully,

W. S. WARNER,

"Always to be Reiled Upon for Correct Time." "Always to be Reifed Upon for Correct Time."
GENTLEMEN: Having worn the watch I bought of
you six months, in a business where there is rough
work. I am delighted to say it keeps perfect time,
and I would not give it for any watch I ever saw.
It is always to be relied upon for correct time. I
shall never want any other Very truly yours,
CHAS. J. ZELLNER, Forsyth, Ga.

We have hundreds of such recommendations.
Over 500 of our watches are now in the hands of railroad men, and all giving satisfaction. Prices very low for first-class time keepers. Call and examine our improved watches, or send for catalogue. J. P. STEVENS WATCH CO.,

next month, until then you will find

FINE SHOES

# SLIPPERS

at a great sacrifice. No old goods. No badly bought stock to try and sell at COST, but first-class goods that we will give our customers reduced figures on

MARK BERRY 33 PEACHTREE ST.

# D. H. Dougherty "SPOT-CASH."

Mine is the only real, simonpure, square-down, flat-footed Spot Cash Dry Goods and Shoe House in Atlanta. Others may shell the woods with their big guns (?) and keep up a powerful noise, but if you want to see things done nicely and cheaply come in and witness the rattle of small arms under the racket of spot cash.

# DOUGHERTY.

Call and see what I am doing in Shoes. Some grand drives in the best brands of goods made are being sold.

# D. H. Dougherty "SPOT-CASH."

I am closing out my Nete, Veilings and Crapes at the same reduced rates as other goods.

# D. H. DOUGHERTY SPOT CASH

DRY GOODS AND SHOES. A few more of those cheap

Pant goods still on hand. Now is your opportunity to save money in Men's and Boy's wear, for I am going to close them out. ANY ROUTE VIA CINCINNATI.

"For 'tis a physic that's bitter to sweet end."
Measure for Measure, Act IV., Scene 6.

# SMITH'S SCROFULA SYRUP

MR. JOHN B. DANIEL:
Dear Sir: Association Dear Sir: Asson as you receive this please send me two bottles more of Smith's Scrofula Syrap. as I expect to remain here until after the Exhibition. That which I have already taken has done me more good than a dozen doctors that have treated me from Atlanta to Chicago and back to Atlanta, and they have been the most eminent doctors of Atlanta, Nashville, Louisville, Chicago and Cincinnall Vanz tark. Atlanta, Nashville, Louisville, Chicago and ati Yours truly, A. W. CRAWFORD

# "SPOT-CASH"

Don't I know that SOME BODY hates my spot cash racket and don't I know also that it pleases the great masses of the people? And THIS is the element I wish to please.

# D. H. DOUGHERTY

SPOT CASH HOUSE.

I specially invite persons visiting Atlanta to call and see how much you can save by buying your Dry Goods and Shoes from 1 a spot cash house. My semiannual clearance sale is being continued.
